## THE SPECIAL ONE

Mourinho, centre, is pleased with the consequences of his design.

Such is the fluidity and passing motion in the world of football and watchmaking that the special watch designed for the Special One by deLaCour, the Mourinho City Ego Prototype, has seen several changes of hands.

Designed by Jose Mourinho, while he was head coach at Real Madrid Football Club, the watch and principal players have moved on. Mourinho is now back as manager at Chelsea, and the watch he wore was sold and eventually snapped up by a Liverpool supporter — Dominic Khoo.

Khoo, who doesn't like to walk alone, has acquired the titanium timepiece for The Watch Fund ([www.thewatchfund.com](http://www.thewatchfund.com)), the investment vehicle for high-level watches. The Watch Fund allows stakeholders to wear their investment-grade timepieces and make a profit of at least 20% after three years. Khoo, the founder of the Fund, which has US\$16 million of assets under management, is a certified watch specialist.

This autographed titanium Mourinho City Ego Prototype is unique. The case is secured with eight screws and on the back is engraved one of Mourinho's utterances bordering on self-confident arrogance: "I am not afraid of the consequences of my decisions".
